

# Fawaz Shah

4 Cookham Dene Close, Chislehurst, Kent, BR7 5QW

✉ fs2217@ic.ac.uk • 🌐 fawazshah.github.io

Joint Maths and Computing (JMC) student, graduating 2020

## Education

---

- **Imperial College London**  
○ *BEng. Mathematics and Computer Science (Joint Honours)* 2017–2020  
Current modules of interest: Java, Logic, Graphs and Algorithms, Applied Methods and Linear Algebra
- **St. Olave's Grammar School**  
○ *GCSEs and A Levels* 2010–2017  
A Levels: 4 A\*s (Maths, Further Maths, Chemistry, Physics) & 1 A (EPQ)  
AS Levels: 1 A (Computing)  
GCSEs: 10 A\*s & 2 As

## Technical and Personal Skills

---

- Written Python code for maths-intensive personal projects, such as matrix inversion and manipulation of coprime theory and the Mandelbrot set
- Implemented Haskell in scenarios such as writing a mail-merge program, generating fractals using Lindenmayer systems and creating a symbolic calculus interpreter
- Implemented Java in situations such as solving the shortest path problem, scheduling timetables and basic critical path analysis
- Written a countdown web app in HTML5, using CSS3 for styling and JavaScript for logic-handling
- Hosted and managed a public web server on a Raspberry Pi, using knowledge of Bash and Linux
- Familiar with git and programming on Unix systems

## Positions of Responsibility

---

- **Imperial College JMC Year 1 Academic Representative** Sep. 2017 - Jul. 2018  
Current duties include:
  - Collecting feedback from other first year JMC students and passing it on to the coordinators of the degree
  - Reporting any academic issues to relevant lecturers or administrative staff
  - Working with senior members of staff and other representatives to solve problems faced by JMC students
- **President of St. Olave's Computer Science Society** Jan. 2016 - Dec. 2016
  - Scheduled regular meetings throughout the year, presented talks on significant topics such as quantum computing and artificial intelligence, and encouraged younger students to give presentations themselves
  - Expanded the size of the society, by opening it up to all years instead of just 6th form and promoting it heavily
  - Organized a presentation given by a senior developer at Oracle, achieving record turnout to the Society
  - Helped organize the St. Olave's Programming Competition, a 1-term-long coding competition for younger students
- **St. Olave's Computing Prefect** Sep. 2016 - Feb. 2017
  - Mentored a GCSE Computing student, checking up regularly and ensuring he was coping well with the curriculum
  - Arranged St. Olave's Raspberry Pi club, helping younger years to learn Bash and Python

## Notable Achievements

---

- Published a dissertation on "The socioeconomic effects of artificial intelligence in the future" in the St. Olave's Academic Journal
