

Fawaz Shah

Room 40G03, Wilson House, Sussex Gardens, London, W2 1UF
07548822935 | fs2217@ic.ac.uk | fawazshah.wordpress.com

Education

Imperial College London, BEng. Mathematics and Computer Science [2017-2020]

- Current modules of interest: Mathematical Methods, Logic, Advanced Programming in Haskell
- Later 1st year modules: Java, C, Reasoning about Programs, Graphs and Algorithms, Foundations of Analysis, Algebra and Analysis, Applied Methods and Linear Algebra

St. Olave's Grammar School [2010-2017]

- A Levels: Maths (A*), Further Maths (A*), Chemistry (A*), Physics (A*) & EPQ (A)
- AS Levels: Computing (A)
- GCSEs: **10 A*s and 2 As**, including A*s in Maths, English Language, English Literature, Biology, Chemistry, Physics and Computing

Technical Experience

- Written Python code for maths-intensive personal projects, such as matrix inversion and manipulation of coprime theory and the Mandelbrot set
- Implemented Haskell in scenarios such as writing a mail-merge program, generating fractals using Lindenmayer systems and creating a symbolic calculus interpreter
- Written a countdown web app in HTML5, using CSS3 for styling and JavaScript for logic-handling
- Hosted and managed a public web server on a Raspberry Pi, using knowledge of Bash and Linux

I am familiar with git and programming on Unix systems. Many of my programs are available to download from fawazshah.wordpress.com.

Positions of responsibility

Imperial College Joint Maths and Computing (JMC) Year 1 Representative [2017-2018 academic year]

Current duties include:

- Collecting feedback from other first year JMC students and passing it on to the coordinators of the degree
- Reporting any academic issues to relevant lecturers or administrative staff
- Working with senior members of staff and other representatives to solve problems faced by JMC students

President of St. Olave's Computer Science Society [2016-2017 academic year]

- Scheduled regular meetings throughout the year, presented talks on significant topics such as quantum computing and artificial intelligence, and encouraged younger students to give presentations themselves
- Expanded the size of the society, by opening it up to all years instead of just 6th form and promoting it heavily
- Organized a presentation given by a senior developer at Oracle, achieving record turnout to the Society
- Helped organize the St. Olave's Programming Competition, a 1-term-long coding competition for younger students

St. Olave's Computing Prefect [2016-2017 academic year]

- Mentored a GCSE Computing student, checking up regularly and ensuring he was coping well with the curriculum
- Arranged St. Olave's Raspberry Pi club, helping younger years to learn Bash and Python

Notable Achievements

- Published a dissertation on "The socioeconomic effects of artificial intelligence in the future" in the St. Olave's Academic Journal
- Nominated for Computing Student of the Year by the St. Olave's Computing Department
